REVENUE ASSUMPTION

- Benefit Assessment rates per Single Family Equivalent (SFE) increase \$0.99 per Single Family Equivalent (SFE) to \$13.48 per SFE estimated revenue \$2,147,755
 - Increase in assessment due to conservative estimate of County tax revenue
- Property Tax Current to increase by 3 % in line with Assessors Valuation
- Interest revenue increase to \$200,000
- Miscellaneous revenue includes \$16,000 estimated CalCard rebate, \$35,000 for USDA refund for expenses and \$12,000 for reimbursement for testing other mosquito & vector control districts' mosquito samples for WNV or SLE.

EXPENDITURE

Total Operating budget expenditure for FY2019-20 is forecast to be \$11,608,398 this is a 14.1% increase over the estimated actual for FYE June 30, 2019. Variability factors that affect operating expenditures include mosquito abundance, disease presence and presence of invasive of species i.e *Aedes aegypti*. CPI increase for Riverside Area in March 2019 is 2.8 %.

Figure 1 Operating Budget

Expenditures are broken down into Payroll, Administrative, Utility, Operating and Contribution to Capital Reserves. Payroll costs, which account for 70 % of the budget, are projected to increase by 12.9% over the estimated actual for FYE June 30, 2019. The main increases are due to CalPERS Unfunded Liability lump sum payment of \$600,000, budgeted positions that were recruited part way through the year are fully funded for example the position Public Information Officer was recruited in April 2019. The FY2019-20 Budget also includes an extra position of Accounting Technician I budgeted at 0.8 FTE as well as 2 percent COLA per MOU for all staff and CalPERS increase.

Although the 2019-20 Operating budget is 24.7% over the latest estimate for 2018-19, it is a 7 % over the 2018-19 budget. Operations are extremely difficult to budget and 2018-19 due to the year to year variability of vector populations and the pathogens they transmit.. Administrative expenditures are projected to increase by 8.3%, Utility to increase by 3.1% and Contribution to Capital Reserves increase 4.1 %.

EXPENDITURE ASSUMPTIONS:

Payroll Expenses

The District employs 60 full-time staff, increased with seasonal (part time) staff beginning early summer, totaling 68 full time equivalents (FTE).

- Cost of living adjustment of 2 percent for all employees
- CalPERS Employer Rate increase from 8.099% to 8.563% (Classic)
- CalPERS employer payment of unfunded liability increased from \$132,568 to \$757,735
- Additional position Accounting Technician I budgeted at 0.8 FTE
- Seasonal Worker Budget is \$205,140. This includes 10 workers in Operations for summer 2019, 10 for spring 2020 for RIFA, Eye Gnat and Fly control and 3 working in the lab conducting vector surveillance.

Administrative Expenses

- Property and liability insurance dues increase from FY2018-19 Budget to \$114,911. Retrospective adjustment is forecast to be lower, VCJPA are factoring in retaining 50 % of retrospective adjustments to build equity in the program.
- Workers compensation insurance dues are estimated to \$225,303. Retrospective adjustment is estimated to be \$45,000
- Professional Fees Administration Budget is \$0, these are now accounted for in budget Professional Fees Finance which are \$43,000 this includes audit, reserve study update, payroll fees, and CalPERS administration fees.
- Attorney Fees are set at \$48,000.

Utility Expenses

- Expenses are forecast to remain at \$116,000

Operating Expenses

- Contingency Expense of \$150,000

This amount is almost 10 % of the Operating Expenses minus the Research Budget. This expense is built into the budget in case there is a need to buy more equipment, chemicals or aerial services.

CAPITAL BUDGET – SUMMARY

The **Thermal Facility Remediation Fund Reserve** includes rental revenue of \$17,119 and a fund transfer from the General Fund of \$44,750. The Thermal Budget includes remediation work; \$524,000 has been set aside for this. Ending fund balance for Thermal Facility Remediation Fund Reserve is estimated to be \$58,921

CALPERS Unfunded Liability Options:

The District's latest CalPERS actuarial valuation shows that the District has a projected June 30, 2019 Unfunded Liability of \$1,684,112. Amortized over 27 years, the current amortization schedule, for FY 2019-20, CalPERS charges the District a payment of unfunded liability of the amount \$155,370. As of June 30 2017 the District funded ratio is 88.4%. Addressing the unfunded liability by either shortening the amortization period or paying lump sum or a combination of both will increase the District's funded ratio, reduce the District's interest payments, reduce future annual unfunded liability payments and protect the District's employee's pension fund. The Finance Committee reviewed 5 options of addressing the CalPERS Unfunded Liability.

- Paying CalPERS Unfunded Liability using current amortizations schedule
- Paying CalPERS Unfunded Liability using 10 year amortization schedule
- Paying CalPERS Unfunded Liability using 5 year amortization schedule
- Paying \$600,000 lump sum from estimated FY2018-19 Operating Budget surplus then amortizing the balance over 5 year amortization schedule
- Paying full CalPERS Unfunded Liability from estimated FY2018-19 Operating Budget surplus, and Fund Balance

After reviewing these 5 options, the Finance Committee discussed at the May Budget Workshop the following two options, take no action and continue paying the annual unfunded liability over the current amortization period (Option 1), or use the projected surplus from the FY 2018-19 of approximately \$600,000 as a lump sum payment and amortize the balance over 5 years (Option 2).

Proposed Options

1. CalPERS Unfunded Liability – Current Amortization Schedule

Over the 27 year period total payments are estimated to be \$2,753,446, including \$1,069,334 in interest payments. For FY 2019-20 the unfunded liability payment is \$155,370

2. CalPERS Unfunded Liability – Lump Sum \$600,000 plus \$155,000 5 year amortization

Use the \$600,000 FY2018-19 Operating Budget surplus plus \$155,000, amortize the balance and pay total estimated payments of \$1,953,106 saving an estimated interest payments of \$800,340

For both of these scenarios the Benefit Assessment is unaffected.

Retiree Healthcare Liability (OPEB Liability)

The District provides eligible employees who retire through CalPERS, health insurance. The retiree medical coverage is provided by CalPERS as permitted through the Public Employees Medical and Hospital Care Act (PEMCHA). The plan offers post-employment medical benefits to retired employees who satisfy the eligibility rules (50 years old, 5 years of service with the District and 10 years of CalPERS eligible service). Vesting requires 10 years of CalPERS

service, at 20 years an eligible employee can receive full health care contribution from the District. Currently the District has 5 inactive employees who receive healthcare benefit contributions. As of June 30 2018 the District's OPEB Liability is actuarially determined to be \$3,276,272, the fund balance is \$2,560,349, with net OPEB liability of \$715,923. The funded ratio is 78%. For FY 2019-20 the amount \$352,420 is budgeted for retiree healthcare which includes \$312,000 for prefunding the liability.

Reserve for Future Healthcare Liabilities is \$877,253

- **Option prefund from reserves**

Balanced Budget

To balance the budget the Benefit Assessment increase \$0.99 from \$12.49 per SFE to \$13.48 per SFE. Increase in Benefit Assessment based on conservative estimate of County tax revenue.

RESOLUTION NO. 2019-06

**A RESOLUTION OF THE BOARD OF TRUSTEES OF THE
COACHELLA VALLEY MOSQUITO AND VECTOR
CONTROL DISTRICT ADOPTING THE
FISCAL YEAR 2019-20 BUDGET**

WHEREAS, the Coachella Valley Mosquito and Vector Control District (“District”) is a political subdivision and a “local agency” of the State of California, created and operating under the authority and provisions of California Health and Safety Code Section 2000 et. seq., and

WHEREAS, the District’s Board of Trustees (“Board”) has been granted the statutory authority and responsibility to administer the financial affairs of the District; and

WHEREAS, California Health and Safety Code section 2070(a) provides that on or before August 1 of each year, the Board shall adopt a final budget, which shall conform to the accounting and budgeting procedures for special districts contained in Subchapter 3 (commencing with Section 1031.1) and Article 1 (commencing with Section 1121) of Subchapter 4 of Division 2 of Title 2 of the California Code of Regulations; and

WHEREAS, the Board reviewed the Fiscal Year 2019-2020 Budget for the District (“Fiscal Year 2019-2020 Budget”), attached hereto as Exhibit A and incorporated herein by this reference, and determined that said budget conforms to all applicable regulations;

WHEREAS, the Board desires to adopt the Fiscal Year 2019-2020 Budget.

NOW, THEREFORE, BE IT RESOLVED by the Board of Trustees of the Coachella Valley Mosquito and Vector Control District that:

Section 1. Recitals.

That the recitals set forth above are true and correct.

Section 2. Adoption of Budget.

The Board hereby adopts the Fiscal Year 2019-2020 Budget, which shall be made available for public inspection in the office of the District Manager.

Section 3. Transmit to County.

That pursuant to California Health and Safety Code Section 2070(b), the Board hereby directs the District Manager to cause a copy of the Fiscal Year 2019-2020 Budget to be transmitted to the Riverside County Auditor-Controller's Office.

Section 4. Severability.

The Board declares that, should any provision, section, paragraph, sentence or word of this Resolution be rendered or declared invalid by any final court action in a court of competent jurisdiction or by reason of any preemptive legislation, the remaining provisions, sections, paragraphs, sentences or words of this Resolution as hereby adopted shall remain in full force and effect.

Section 5. Repeal of Conflicting Provisions.

That all the provisions heretofore adopted by the Board that are in conflict with the provisions of this Resolution are hereby repealed.

Section 6. Effective Date.

This Resolution shall take effect immediately upon its adoption.

Section 7. Certification.

The Clerk of the Board shall certify to the adoption of this Resolution and shall cause the same to be processed in the manner required by law.

BUDGET 2019-20
REVENUE

The fiscal year runs from July 1, 2019, to June 30, 2020. The District receives revenues from property taxes and a special benefit assessment that are collected by the County of Riverside through homeowner property tax bills. These monies are assessed and collected each fiscal year according to the following property tax calendar:

Lien Date:	January 1
Levy Date:	July 1
Due Date:	November 1 – 1 st Installment February 1 – 2 nd Installment
Delinquent Date:	December 10 – 1 st Installment April 10 – 2 nd Installment

Prior to FY2012-13 the District’s three main sources of revenue were property taxes, redevelopment agency tax increment (formerly pass-through revenues), and the special benefit assessment. Revenue from property taxes is deposited directly to the County of Riverside Investment Pool until required, while the Benefit Assessment income is paid directly to the District. The Redevelopment Dissolution Act (ABX1 26) now sees tax increment income being distributed from the County rather than directly from redevelopment agencies. The main receipts of property tax and benefit assessment are distributed by the County of Riverside in January and May each year.

The amount of revenue the District receives is based on the assessed value of properties within the District’s boundaries. For FY2019-20 because of the local real estate market is rebounding from the slump of the last decade, the Riverside County Assessor’s Office is forecasting an increase of over 4% increase in assessed valuation which will result in increasing property tax and tax increment receipts.

REVENUE ASSUMPTIONS

- **CURRENT PROPERTY TAX TO RISE BY 3 PERCENT BASED ON ASSESSOR’S OFFICE**

- **BENEFIT ASSESSMENT RATE \$13.48 PER SFE**
- **CURRENT PROPERTY TAX INCREMENT TO RISE BY 3 PERCENT**

SOURCES OF REVENUE

Property Tax - Current Secured: The ad valorem property tax income is the largest source of revenue for the District. According to Riverside County Assessor’s Office in FY2019-20 property taxes are forecast to increase by 4 percent over FY2018-19 totals.

Redevelopment Tax Increment: For FY2019-20 RDA tax increment is estimated to increase by 3 percent over FY2018-19 totals

Benefit Assessment Income: The District benefit assessment income was approved on July 26, 2005, and reflected in Board Resolution No. 2005-04. At that time it was granted a maximum assessment rate of \$16 per single family home, increased each subsequent year by the Consumer Price Index-U for the Los Angeles-Riverside-Orange County area as of December of each succeeding year (the “CPI”), with a maximum annual adjustment not to exceed 3%. Should the annual CPI change exceed 3%, any percentage change in excess of 3% can be cumulatively reserved and can be added to the annual change in the CPI for years in which the CPI change is less than 3%. Property owners approved the initial assessment, including the CPI adjustment schedule, allowing the assessment to be levied and adjusted annually by up to the maximum annual CPI adjustment without any additional assessment ballot proceeding. The Benefit Assessment was reduced by 36 percent in the FY2008-09 Budget to \$10.55 per single family home; this was further reduced to \$9.14 for FY2009-10. FY2010-11 was reduced to \$6.14; FY2011-12 was reduced to \$3.07. FY2012-13 remained at \$3.07. For FY2013-14, FY2014-15 and FY2015-16 the Board of Trustees set the Benefit Assessment rate at \$6.07 a single family equivalent (SFE); for FY2016-17 the Board raised the assessment to \$9.15. For FY2017-18 the Assessment rate was \$10.21 for FY2018-19 it is \$12.49 per SFE. For FY2019-20 it is \$13.48 per SFE.

 PROGRAM 210 – INFORMATION SYSTEMS**

PROGRAM DESCRIPTION

Information Technology (IT) provides a full range of services including end-user and server support, telecommunications management, network operations, systems development and Geographical Information Services (GIS). The function of IT is to deliver innovative information technology solutions to provide citizens, the business community and District staff with convenient access to appropriate information and services, enhancing the mission and activities of the Coachella Valley Mosquito and Vector Control District.

The Geographic Information System is a division of the IT Department and a District-wide program of spatial data and application development. GIS manages the District's Mobile Inspection Application, a state-of-the-art wireless mapping and data services utilized by Vector Control, Bio-Control and Surveillance for field data capture.

It is the District’s vision to become the leading environmental friendly organization in controlling mosquitoes and other vectors by being compliant with NPDES requirements through accurate recording in the GIS program of applications of all regulated and authorized public health control products.

 PROGRAM 215 – PUBLIC OUTREACH PROGRAM**

PROGRAM DESCRIPTION

The Public Outreach Department aims to educate all members of the Coachella Valley community on how to reduce mosquito and vector threats and protect public health from mosquito- and vector-borne diseases. The Department raises awareness about District programs, services, and activities through the dissemination of vector control and disease prevention information to Coachella Valley residents. This includes the conceptualization of District materials such as brochures, news releases, feature articles, manuals; promotional items with District messaging; newspaper, radio, and television (news and advertising), and digital content (website, video, social media, presentations, and links on local partner websites). The Department is responsible for media and stakeholder relations, community engagement, and ensuring that the District’s mission and prevention messages are spread throughout the Coachella Valley. Departmental outreach involves presentations to city, county, community, and partner agency meetings, as well as to senior centers, health fairs, HOAs, and schools. In addition, the District participates in selected events, such as science fairs, science discovery days, the Riverside County Fair and National Date Festival, Mecca Community Resource Fair, Thermal Resource Fair, and other events that help to reach our audience. The Department organizes neighborhood events to target vector-infested areas.

This year the Public Outreach Department’s goals are to:

- Enhance the District’s public identity and trust through expanding accessibility to our education information; introducing an expanded social media presence; creating outreach campaigns with clear and consistent messaging; developing stronger ties with cities and local agencies to ensure local governments carry our community message of prevention and protection; providing messaging to all staff to communicate to the public; supporting presentation and interview skills development and delivery so that all District staff are communicating one unified message when dealing with the public, partner agencies, and elected officials.
- Establish stronger relationships with local media by offering newsworthy information, making interviewees available ahead of news deadlines, making sure we are available when they need us not just when we need them. Explore editorial opportunities, as well as live radio and TV interviews during Mosquito Awareness Week, peak WNV season, and invasive mosquito species and mosquito-borne diseases news cycles.

- Streamline the District’s outreach materials and channels to maximize impact and save on printing costs through a series of new informational materials requiring less paper, which are more succinct and therefore more likely to be read, driving people to our website for more in-depth information; continuing to update the District website to be more user-friendly to the general public and enhance transparency by making the current content more visible to the user and develop more interactive elements; and continue development of programs to raise awareness among HOAs and other partners, increasing our audience reach and message frequency through expanded advertising channels in both Spanish and English; and introduce targeted reach through direct mail programs.
- Refine educational outreach with more online tools for student learning and expanded District-based learning opportunities for all age levels.
- Develop and implement measurement tools and tracking to assess how successful outreach campaigns are and what elements are working and not working. This would be done through Google Alerts, web traffic analysis, surveys; and through tracking where callers to the District heard about us.
- Roll out community “Fight the Bite Block Parties and Clean Ups” to educate residents in invasive Aedes-infested neighborhoods how to rid their property of standing water sources.
- Develop and carry out surveys on behavior change triggers in targeted areas and develop messaging and programs to get communities to make standing water source elimination a habit.

PROGRAM 400 – SURVEILLANCE AND QUALITY CONTROL PROGRAM**

PROGRAM DESCRIPTION

The District’s Surveillance and Quality Control Program is charged with conducting vector surveillance and disease detection; quality control and efficacy of products; implementing the biological control program; partnering with community organizations for physical control; and ensuring compliance with environmental regulations.

Determining where vectors are and whether residents are at risk of contracting an arboviral disease are important components of the District’s Integrated Vector Management (IVM) Program. The staff monitors and analyzes data including immature and adult mosquito abundance; virus activity in mosquitoes and wild birds; and climate variables such as temperature, humidity, and Salton Sea water level. This analysis, our virus transmission risk model, allows Operations to focus control efforts where they will have the most impact.

The Surveillance and Quality Control Program conducts quality control assays, product efficacy assays, and resistance assays to ensure that control products and biological control organisms work as they should. Assays are also conducted to assist the Control Operations Department in using the most effective dose and method of application in the field. This department is responsible for production of the biological control organisms used in the IVM program and for working with community organizations to develop and evaluate physical control of vectors. Staff also oversee and report on environmental and regulatory issues related to vector control.

This year the Laboratory Department's goals are to:

- Expand *Aedes* surveillance: The District detected *Aedes aegypti* within its service area in 2016. As the detections of new locations have primarily involved service requests from residents, it is possible that there are more areas and neighborhoods where this mosquito is but has yet to be detected. The Laboratory Department increased the number of traps in the previous fiscal year and is using those traps to conduct a comprehensive surveillance of the District's cities to examine whether there are additional populations in the valley.
- Set-up internal testing for arbovirus samples for chikungunya, dengue, and Zika. The Davis Arbovirus Research and Testing facility currently provides this testing using funds from the Centers for Disease Control for no cost. As these funds are likely to run out, districts can expect to need to pay for these tests in the near future. Further, the samples must be mailed in to Davis, and results are not available until 3-5 days after they are received. This delay in the testing is one reason that the District moved to on-site testing for West Nile virus, and the need for on-site testing for viruses which are transmitted by *Aedes* mosquitoes is of paramount importance. The Laboratory Department will be moving towards on-site testing for these viruses in 2019.
- Rapid detection of arbovirus samples: The Laboratory Department currently conducts virus testing for the *Culex* mosquitoes that it collects, testing for West Nile virus, St. Louis encephalitis virus, and western equine encephalomyelitis virus. Testing these mosquitoes at the District has benefited the District's Control Operations Department and the residents by allowing for a rapid response to positive samples. The Laboratory Department has expanded the number of samples budgeted to be tested to account for the increased collection and the re-emergence of St. Louis encephalitis virus.

- Examine product efficacy: The Laboratory Department will examine several new and existing mosquito control products to define the efficacy and residual activity for mosquitoes in the Coachella Valley. Assays planned include using adulticides in storm water structures, coverage of area-wide applications using truck-mounted equipment to mosquito sources in urban portions of the valley, examination of adulticide applications in response to virus-positive mosquito samples, and efficacy of products approved for homeowner use.
- Ensure regulatory compliance: The Laboratory Department will continue to ensure that the District is compliant with relevant environmental laws and regulations. In this fiscal year, the Laboratory Department will review and revise its Environmental Protection Agency’s Pesticide Environmental Stewardship Program strategy document. The Laboratory Manager will attend the California Stormwater Quality Association Conference in Riverside to continue to forge relationships with others involved in stormwater and the devices that collect water which technicians treat for mosquitoes.

PROGRAM 500 – CONTROL OPERATIONS

PROGRAM DESCRIPTION

Control Operations Program is responsible for environmentally friendly and effective suppression of pathogen-carrying vectors and mosquitoes for the purpose to reduce the transmission risks to humans and other animals of diseases caused by West Nile, Saint Louis and western equine virus. The District covers a 2,400 square mile area where a dozen resort and residential communities provide ample vector and nuisance species habitat ranging from the Salton Sea marshes to agricultural habitats, neglected pools and different urban locations. State Certified Vector Control Technicians take care of site inspections, surveillance, preventive chemical applications, and, when appropriate, use biocontrol measures such as use of mosquito-eating fish and other integrated vector management control methods. They also execute a call - requested inspections for controlling red imported fire ants, eye gnats and flies, and provide site inspections for rodent proofing residential and public properties and other nuisance and vector species.

The Red Imported Fire Ants (RIFA) program is focused on suppressing the population of RIFA and maintaining the level of infestation to minimum. Currently the program is addressing large green areas/golf courses as well as the residential call reporting RIFA infestation.

**FUND 01 – GENERAL OPERATING FUND
OPERATING BUDGET 2019-20
PROGRAM 600 – RESEARCH PROGRAM**

PROGRAM DESCRIPTION

BACKGROUND:

The District has had a long beneficial relationship with the vector control researchers from universities and other state/federal organizations. The purpose of research funded by the District is to develop and evaluate applied vector and vector-borne disease surveillance and/or integrated vector management (IVM) strategies. These projects ultimately improve the District's operations and surveillance programs and make the best use of the District's financial resources. Funded research leaves a legacy of knowledge in the form of publications and presentations that can be used by mosquito control districts in California, nationally, and around the world.

COLLABORATIVE RESEARCH PROJECTS

The goal of the collaborative research projects will be to develop and evaluate applied vector and vector-borne disease surveillance and/or integrated vector management (IVM) strategies. Funded projects should improve CVMVCD's operations and surveillance programs and make best use of the District's financial resources.

Listed below are CVMVCD's research interests for 2019-20:

CVMVCD Research Interests

These are the general interests of CVMVCD. Projects should address at least one of the following:

1. Arbovirus transmission cycles and environmental factors experienced in the Coachella Valley that may enhance the amplification of arboviruses within these cycles.
2. Implementation of newly emerging physical and chemical control methods for mosquito control in the Coachella Valley.
3. Implementation of newly emerging mosquito surveillance methods in the Coachella Valley.
4. Development and application of novel control strategies for the red imported fire ant, *Solenopsis invicta*, in Coachella Valley urban habitats.
5. Development and application of novel surveillance and control strategies for synanthropic flies (e.g., eye gnats, house flies, filth flies) in rural and urban habitats in the Coachella Valley.

Specific Interests:

CVMVCD is highly interested in projects that address specific control issues in the Coachella Valley. Examples of these are, but are not limited to:

1. Implementation of novel mosquito or arbovirus surveillance methods or enhancement of current surveillance methods in the Coachella Valley.
 - a. *Aedes* mosquitoes and their associated arboviruses
 - b. *Culex quinquefasciatus* and *Cx. tarsalis*
 - c. West Nile Virus, St. Louis Encephalitis virus, Western Equine Encephalomyelitis virus

2. Development and implementation of novel or enhanced physical, chemical, and biological control methods targeting at least one of the following:
 - a. Mosquitoes (primarily *Cx.tarsalis*, *Cx. quinquefasciatus*, *Ae. aegypti*)
 - b. Red imported fire ants, *Solenopsis invicta*
 - c. Synanthropic flies (e.g. eye gnats, house flies, filth flies)

3. Analysis of environmental factors experienced in the Coachella Valley that may influence the amplification of arbovirus transmission with suggested operational strategies to minimize transmission.

RFP will be issued in the summer of 2019

**ALLOCATION TO THE AMERICAN MOSQUITO CONTROL ASSOCIATION (AMCA)
MOSQUITO RESEARCH FOUNDATION (MRF)**

SUMMARY – The Mosquito Research Foundation is devoted to funding needed research to enhance the understanding of the ecology of mosquitoes and the epidemiology of the diseases that they transmit. The MRF moved from being an independent granting agency to being governed through the American Mosquito Control Association in 2017. Currently one member from the District serves on the committee which is reviewing the guidelines and proposals.

POTENTIAL BENEFITS – Helping support the MRF allows more projects impacting mosquito control in the United States to be funded than what the District alone can fund.

 PROGRAM 601 – USDA COOP AGREEMENT**

PROGRAM DESCRIPTION

BACKGROUND:

The District has had beneficial relationship with the United States Department of Agriculture (USDA). A group of investigators at the USDA Center for Medical, Agricultural and Veterinary Entomology (CMAVE) conduct research to evaluate vector control strategies in hot, arid environments with the main goal of finding methods to protect US soldiers overseas from vectors and vector borne diseases. Their research is funded by the Department of Defense Deployed Warfighter Program. The USDA CMAVE researchers selected our District to investigate vector control strategies because of the environmental similarity to locations in the Middle East, as well as the District’s staff and facility to assist in research. The District provides labor, materials, and laboratory space to assist in the research projects. In return the District gets funds to compensate for the use of staff time and materials, funding for District staff to receive extra information in vector control by funding travel to conferences, up-to-date information on vector control methods in our desert environment, and the opportunity to work alongside from and learn from outstanding researchers.

 PROGRAM 602 – LABORATORY TESTING**

PROGRAM DESCRIPTION

BACKGROUND:

The District began testing mosquito samples for the three most common arboviruses of public health concern in California, St Louis Encephalitis virus (SLE), Western Equine Encephalitis virus (WEE) and West Nile virus (WNV) at the District’s expanded laboratory in late 2014. The District tested about 5,000 mosquito samples in 2017. The District has the capability to test more samples with the existing staff. The District has been in discussion with other nearby vector control agencies to perform testing of mosquito samples for these agencies. The CVMVCD would perform testing for the cost of materials and labor used. This would allow for these agencies to test mosquito samples at a lower cost than sending them to the UC Davis Arbovirus Research and Training (DART) group. The testing at CVMVCD would also test for WEE, SLE and WNV, which is beneficial because some Districts that test samples at their facilities only test samples for WNV. If the District tests more samples then the cost of testing will stay low as more samples tested per plate makes the testing process cheaper per sample. However, the District only wants to test samples for a few smaller agencies as too many samples would increase labor. This will be the 3rd year for testing samples and future testing plans will be based on insight gained from experience from this year.

Goal to Test 1,000 samples

FUND 12 – THERMAL FACILITY REMEDIATION FUND RESERVES
BUDGET 2019-20
PROGRAM 900 –THERMAL FACILITY REMEDIATION FUND RESERVES

PROGRAM DESCRIPTION

This program details capital expenditures for ongoing improvements at the District’s Thermal Facility. In FY2008-09, substantial funds were used to finance a remediation action plan that included capping the soil with asphalt. One of the recommendations from the engineering firm hired to design the remedial action plan was to repair or repave the whole area every 10 years. Estimated cost based on today’s valuation is \$450,000; increase by CPI of 3 % the estimated liability is \$605,000. Revenue to fund this includes a transfer from the General Fund of \$44,750 and Rental Income from the lease with the current occupiers, both annually increased by CPI.
